

Previous St Andrews News

Since reopening in October as a result of the demise of the former ownership structure, much has happened and whilst we have a long way to go in changing this once exclusive and private golf club into one of Australia's premiere pay to play venues, some major hurdles have been overcome.

For the record, Golf Services Management P/L, has a 3 year management contract to operate the golf activities as a pay to play venue and has no connection or association with the former company Golf Club Properties P/L whatsoever. The maintenance is carried out by The Golf Course Company P/L.

Some of the things accomplished include:

- 33 brand new Yamaha golf carts (please don't tell Tom Doak)
- Cart paths constructed - albeit very rough (definitely don't tell Tom Doak)
- Computerized time sheet system in place
- New start of the art pump in the main bore increasing water capacity
- Construction of a putting green
- Successful opening media campaign
- Surveying players to help improve the venue
- Database collection to keep players informed
- Joined the Mornington Peninsula Tourism
- Joined Golf Mornington Peninsula Tourism group

Coming in the near future:

- Increase signage for player benefit - *mid December*
- More work on cart paths - *ongoing*
- Liquor License approval - *due mid to late December*
- More golf carts - *late December*
- Bookings on line through the website - *due mid December*
- BBQ facilities and more furniture - *late December*
- Temporary hitting nets - *Driving Range reopening - mid January*
- Putting green in action - *Late January*
- Properly launch our monthly Challenges - *early January*

"We hope to see you soon at The Beach"

The Team at Golf Services Management
